Dear Bob,

Please do me a favor.

I need a Selective Service registration Card (Certificate?) for my citizenship.

If I am correct, ^{I remember that} just after my arrival to Honolulu in 1960, you took me to the Selective service system near the library, (it is also near the main post office I think) and I registered. I received a card(s), but I can not find it (or them). I may lost it.

It is now very important for me to have that Card, or their statement that I did register. I need it very soon. You must be very busy for your many activities, but will you please go there (that place may be called Local board No. 1, I am sure that you know where it is) & get it for me? I am very grateful for your help. I enclose a letter to them as I do not know their address, and it may be needed. (over)
