MEMORANDUM

To: Maezumi Rōshi

Baker Rōshi

From: R. Aitken

Subject: The Tai San Business

I have received a letter and a packet of materials dated November 3, 1983, and earlier, from George Zournas, including a copy of a joint letter to the two of you. I note that in these communications invidious comparisons are drawn between me and the two of you, suggesting that I "came forward to question [Tai San's] behavior," while the two of you did not.

What I did was respond earlier to Mr. Zournas' request that I send Dr. Tadao Ogura an account of the affair in Hawaii in 1964. This I did by simply sending Dr. Ogura the names of the ^hthree psychiatrists who were active in treating the women whose breakdowns precipitated Tai San's departure from Hawaii.

I feel sure that each of you would have responded similarly after such a request, and I regret that I should be singled out in such a shining light.

Be that as it may, I wonder if it might not be time for us to review the situation and to take a position together.
