Dear Lynn and Helen:

You will recall that my archives at Hamilton Library includes a folder marked "Eido Shimano—Do not open." I am moved by circumstances to request that that this seal be removed, and that the contents be made as available as other material in my archives. In particular, please accede to any request by an attorney for copies of all documents in the folder. Make the copies and send them by mail at the recipient's expense.

Thanks,

Robert Aitken
