**Subject:** consensus

Dear Board Members,

I want to make something clear, since everything was so rushed as our phone-allowance was running out.

I do not agree with asking Roshi to take a leave of absence at this time. I want to hear what he has in mind, and what his response is to our concerns about legal issues.

The only consensus I feel I can join is that we are seeking professional help to deal with these serious concerns.

Then I want to hear what a lawyer says.

Then I want to meet with Roshi Aug. 9-10 to speak about the future of DBZ and Shobo-ji.

I want to have a conference call with the FaithTrust Institute at some point in August. After they have had a chance to look into everything and weigh what is said in various conversations, they will make some recommendations, at which point we can come to decisions about what might come next.

I do not think Roshi's continuing to teach his current students, who know what has transpired and still wish to be his students, constitutes any threat to ZSS or to us.

I realize that most if not all of you disagree with me, but this is my considered opinion, and I ask you to respect it.

gassho,

shinge
