

Dear Friends in the Dharma,

As the year 2010 draws to a close, it is with deep appreciation
and profound gratitude that I write to you.
Because of your dedication and caring support,
Dai Bosatsu Zendo is entering its 35th year.

Sitting together, feeling our awareness expand
"far beyond upside-down views"
and small-minded concerns,
we live in this dynamic and creative moment--
and we extend this present and compassionate mind to all.

A handwritten signature in black ink, written in a cursive style. The signature appears to be "Shingon" with a period at the end. The letters are fluid and connected, with a prominent loop at the beginning of the first letter.
